Adverbs worksheet for grade 2 printable list template

Word problems can be challenging for students, especially second-graders, who may still be learning to read. But, you can use basic strategies that will work with nearly any student, even those who are just starting to learn written-language skills. To help second-grade students learn to solve word problems, teach them to use the following steps:

Survey the math problem: Read the word problem to get an idea of its general nature. Talk with your students about the problem and discuss which parts are most important. Read the math problem: Read the question again. This time, focus on the specific details of the problem. Which parts of the problem relate to each other? Ask questions about the operations involved: Reflect again. Determine the specific math operations the problem is asking you to perform, and list them on paper in the order they are to be performed. Question yourself about the steps taken: Review each step you took. Determine if your answer seems reasonable. If possible, check your answer against the book's answers to determine if you are on the right track. Wrap it up: Scan through the text of the word problems you will be solving to identify any words you do not recognize. List them and determine their meanings before solving the problems. Write brief definitions of the terms for your reference during problem-solving. After reviewing these strategies, use the following free word-problem printables to let the students practice what they've learned. There are only three worksheets because you don't want to overwhelm your second-graders when they are just learning to do word problems. Start slowly, review the steps if needed, and give your young learners a chance to absorb the information and learn word problem-solving techniques at a relaxed pace. The printables contain terms with which young students will be familiar, such as "triangle," "square," "staircase," "dimes," "nickels," and the days of the week. D. Russell This printable includes eight math word problems that will seem quite wordy to second-graders but are actually quite simple. The problems on this worksheet include word problems phrased as questions, such as: "On Wednesday you saw 12 robins on one tree and 7 on another tree. How many robins did you see altogether?" and "Your 8 friends all have 2 wheeled bicycles, how many wheels is that altogether?" If students seem perplexed, read the problems aloud together with them. Explain that once you strip out the words, these are actually simple addition and multiplication problems, where the answer to the first would be: 12 robins + 7 robins = 19 robins; while the answer to the second would be: 8 friends x 2 wheels (for each bike) = 16 wheels. D. Russell On this printable, students will work six questions starting with two easy problems followed by four more of increasing difficulty. Some of the questions include: "How many sides are on four triangles?" and "A man was carrying balloons but the wind blew 12 away. He has 17 balloons left. How many did he start with?" If students need help, explain that the answer to the first would be: 4 triangles x 3 sides (for each triangle) = 12 sides; while the answer to the second would be: 17 balloons - 12 balloons (that blew away) = 29 balloons. D. Russell This final printable in the set contains slightly more difficult problems, such as this one involving money: "You have 3 quarters and your pop cost you 54 cents. How much money do you have left?" To answer this one, have students survey the problem, then read it together as a class. Ask questions such as: "What could help us solve this problem?" If students are unsure, grab three quarters and explain that they are equal to 75 cents. The problem then becomes a simple subtraction problem, so wrap it up by setting up the operation numerically on the board as follows: 75 cents - 54 cents = 21 cents. These grammar worksheets help kids learn to recognize and use adverbs. Adverbs are words that describe or modify verbs. All worksheets are free, printable pdf files. Identifying adverbs and adjectives identify adverbs and the verbs they describe in sentences Use adverbs to complete sentences Writing with adjectives and adverbs Identifying adverbs and verbs in sentences Completing sentences and longer texts with adverbs "How, when or where" adverbs Comparative adverbs (-ly, -er, -est) Where, why and when Relative adverbs Adverb phrases Prepositional phrases as adverbs Comparative and superlative adverbs Find the adverb that is describing the given action verb in each sentence. Double-sided printable worksheet. 1st through 3rd Grades Circle the adverb. Then, determine whether it is describing how the action takes place, where the action is happening, or when the action occurs. 1st through 3rd Grades Complete the poem by adding descriptive adverbs to each action verb. Use words from the word bank, or think of your own. 2nd through 5th Grades Stanley vs. The Storm (Poem) Stanley becomes quite frightened when a storm howls eerily outside his window. Can you find all the adverbs in this fun poem? This adverb activity includes comprehension questions and an answer key. 2nd through 4th Grades Answer a set of questions about adverbs. Explain how they are used in the given sentences, and differentiate from adjectives. 3rd through 5th Grades All About Adverbs: Describing How, When, and Where All About Adverbs: Describing How, When, and Where Kids learn about adverbs in this worksheet that challenges them to identify the adverb in each sentence, then categorize them as describing how, when, or where. 2nd grade Reading & Writing Apple Crisp Perfect and Easy I adapted this from a 50-year-old peach crisp recipe. Author: By Betty Crocker Kitchens Adverb 2nd grade, Adverb worksheet, Adverb Worksheets, grade 2 0 We have prepared a list of worksheets on adverb for 2nd grade. It includes answer keys. It contains 4 pages. You can download the PDF below. Download: Printable Adverb worksheets for 2nd Grade Teaching children to read is an important skill they'll use for the rest of their lives. When children need extra practice using their reading skills, it helps to have worksheets available. You can find an assortment of printable reading worksheets for free and for sale on several websites. Teacher Websites There are several teacher websites where you can download reading comprehension worksheets they created for their classrooms. One advantage of using these worksheets is that they are designed for specific reading levels and have been tested in a classroom. Many follow the formats used on state and local tests that measure reading ability. The teachers sometimes include anecdotal notes and tips for making the worksheets more effective. Publisher Websites Publishers of textbooks, education research and professional development books sometimes offer worksheets on their websites. These worksheets usually are samples from the books they publish so that you can preview the content. Book publishers sometimes produce worksheets to pair with their books. If you're looking for additional practice while reading a specific book, check out their websites for graphic organizers and comprehension questions. You also can purchase collections of traditional and homeschool worksheets in digital books arranged by reading level. Many of these collections are themed by genre or subject matter. This makes it easy to select worksheets that match the child's interest or to build background knowledge in specific areas. Teacher Resource Sites Whether you're a teacher or a parent, teacher resource websites are another option for finding reading worksheets. Some sites like Teachers Pay Teachers let teachers upload worksheets they've created and offer them for sale. Others are more collaborative and give teachers a place to share best practices and materials with others. If you're looking for materials to use in a homeschool setting or for after-school practice, check out these sites. In addition to the worksheets, you get access to a community of educators who can help you find the right materials for your children. Literacy Programs Even for-profit literacy programs offer free worksheets for parents and teachers. Although they're usually designed for use with the company's program, you can use them for other lessons. For example, the company Reading Horizons has downloadable phonics worksheets that work with its digital phonics program and face-to-face lessons. English learner sites are other good sources. Because these programs are geared toward children learning the English language, they incorporate social studies and science lessons along with the reading skills. Nonprofit Literacy Groups Organizations like ReadWorks and edHelper have reading comprehension worksheets available on their websites. You can find reading passages with question sets and vocabulary support to help children practice and improve their reading skills. On the ReadWorks website, you can search for worksheets by grade level, text type and topic. This makes it easy to find worksheets that meet the child's specific needs.
